

Enterprise-Class Image Quality and Ergonomic Design to Enhance Productivity at Work

BenQ BL2483T Business Monitor

BL2483T, the 24 inch FHD monitor with superior image performance and an ergonomic design is ideal for heavy monitor users seeking a display that offers both aesthetics and functionality. BenQ's exclusive eye-care technology ensures a more comfortable and optimal viewing experience.

Because it matters

BenQ BL2483T Business Monitor

Ergonomic Design

Easily customize the height, tilt, pivot, stroke and swivel of the monitor to create a perfect user environment and workspace so you can enjoy all the images in their full contexts.

BenQ's exclusive eye-care technologies reduce eye fatigue for user comfort, enhanced productivity, and workplace safety during extended use. The groundbreaking Color Weakness mode allows users to customize the amount of red or green displayed on the monitor with magenta and cyan filters, ensuring a comfortable viewing experience and color distinction for users. Besides, ePaper mode is customized for office users to enjoy optimized reading experience with clear texts.

Color Weakness Mode

BenQ's ColorWeakness mode allows users to customize the amount of red or green displayed on the monitor with magenta and cyan filters. Once the red and green are neutralized, the mode ensures a comfortable viewing experience for all users and helps users to clearly distinguish between different colors.

The simulated e-book mode provides clear black and white reading layout without distractions and suitable on-screen brightness for a comfortable reading experience with clear texts.

Green Certification Assurance

BenQ BL2483T is certified as EPEAT, Energy Star, TCO and ecoFACTS to promote environmental friendly purchasing decisions for commercial, governmental, and institutional deployment.
