InstaShare Button

Plug. Press. Present.

Share lesson materials instantly with a **single click**, without downloading additional software. The InstaShare Button is compatible with **Windows® laptops, MacBooks®, and Chromebooks®**, making it easy for teachers and students to share content from their preferred devices.

Connect with **one USB-C cable** for a simple, plug-and-play setup. The cable enables **casting, touchback, and power** through a single connection, eliminating the need for additional adapters or complicated cable setups.

Get a **side-by-side** view of everyone's contributions and make the whole class part of the lesson. The InstaShare Button Solution works with **InstaShare 2**, a wireless screen sharing software that lets **up to 9 devices cast content simultaneously**. With touchback, devices can be controlled right from the BenQ Board.

Enjoy **smooth classes without disruptions**. The InstaShare Button delivers **industry-leading connection quality** to ensure stable screen sharing no matter where you sit in the classroom.
