Environment Notice
 * The Contrast is measure by Full On Full Off standard.
 * LightSource life results will vary depending on environmental conditions and usage. Actual product's features and specifications are subject to change without notice.
 * Storage: Temperature: -20~60°C; Humidity: 10~90%RH (without condensation)
 * Transmission quality depends on Wi-Fi environment and the screen mirroring compatibility of mobile devices from different brands.

Smart Projector for Classroom

Learning Without Boundaries

Wireless Accessibility

App Accessibility

Wireless Mirroring

Built-In Android System

Smart Projector

Break away from outdated teaching methods

The World's First Smart Projector for Classroom with built-in internet connectivity and web browser, enables teachers to wirelessly access online teaching material without using a PC or laptop. With Smart Projector, schools can achieve smart and blended learning in the classroom, easily and intuitively.

Smart Access to Your Teaching Material in Any Classroom

Once your cloud storage is linked, your teaching materials are at your fingertips

Designed to save teachers' time on gathering teaching material, teachers can call up their own tailor-made supporting content from the linked cloud storage accounts to Smart Projector using Account Management System app from their own tablet or smartphone. Same teaching content but available in different classrooms.

Smart for Wireless Screen Sharing

Wirelessly share your thoughts in one-click

Built to support laptops, tablets and smartphones, teachers and students can easily wirelessly share reports, ideas and presentation slides from their device to the Smart Projector in one-click. Make your lessons fully engaging and interactive!

BenQ Smart Control App

Turn a smart device into a powerful remote control

Teachers can download the BenQ Smart Control app to their smartphone or tablet and use it to control the projector. By allowing your teachers to use devices they're familiar with, BenQ Smart Control makes class time a naturally interactive environment in which the focus shifts from the lecturer to the learners.

Connect to a Smarter World

A projector that lets you browse more

Unlike traditional projectors, Smart Projector for Classroom has a built-in Android system and web browser (Firefox), allowing teachers to instantly search for online teaching material in the classroom. Provide your students with a greater knowledge landscape, and move away from the wired solution.

Image, Audio, Video files and Youtube videos

Document Files (PDF, PPT, EXCEL)

Support Stored Files on Cloud Storage

Smart School Message Delivery

Empower your campus broadcasting system

X-Sign Broadcast – a wireless broadcasting system that helps schools deliver important school announcements in text, video or audio formats to dedicated or all classrooms instantly or within a timeline, complementing school's PA system.

Smart Management

Hassle-free device management

With the unique DMS Local (Device Management System) and MDA (Multiple Display Administrator), schools can easily centralize projector control via a local network so that your IT administrators can manage all projectors from one central location. With IP5X-certified dustproof technology, it prolongs projector lifespan against hair, dust, and other particulate matter.

Over-The-Air (OTA) Updates

System Updates via Lan

Anti-dust Accumulation Sensor

IP5X-Certified Dustproof Technology
